Theatre Production

Last week we were really excited to

invite the Whitehorse Theatre Company to our school to give our Primary students a fantastic experience of watching Dick Whittington.

The performers engaged our students in what was a brilliant play which enabled them to join in the experience. Here are some photos.

Following on from Sports Day, all the medals for the individual events were presented during KS1 and KS2 assemblies. Medals were presented for the javelin, standing long jump, obstacle course and 50m running race. Rewarding students for their achievements on Sports Day is a great way to develop determination, show them the meaning of persistence and encourage all students to engage in some form of physical activity to improve for next year. Well done to all the winners!

uniform policy

This week, we started our regular uniform check. We are really impressed with so many children coming in school looking smart with perfect uniform. Please support us by reminding your child always leaves for school wearing the correct uniform, ensuring they always tuck their shirt in, wear black leather shoes for formal uniform and only wear small stud earrings. You may also find the Uniform policy in the attachment. If you have any further questions about the uniform policy, please feel free to email you child's homeroom teachers. Once again, we thank you for your continued support.

Grade Four Field Trip Update

What the students thought:

“On October 25th 2018, Grade Four visited the Shanghai Museum of Glass (SHMOG). When we finally arrived, all four classes went into the lobby – it was so crowded! The teachers bought tickets and eventually, we marched towards the exhibits – we were so excited!” Lucas Yao.

“We went to see the hot glass performance, where a man was demonstrating two ways of making glass: using tools to pull and twist the glass and ‘blowing’ the glass.” Michelle Liu.

Later on, we went to the DIY workshop to make our own kaleidoscopes. My kaleidoscope was blue, with stars and some dark patterns on it. When you look inside, you can see shining patterns which are symmetrical – it was marvelous!” Ariel Jiang.

“Outside of the workshop, we spotted the glass maze with its countless glass walls. Inside, it was completely dark, but some of my friends and I finished first. What an interesting and great field trip!” Hailey Hung.

“SHMOG is a fun place to play and learn about the history of glass making – a fantastic trip for me!” Hana Meng.

Grade 4 Field Trip to the Shanghai Museum of Glass – where the students learnt how glass is made, explored reflection in the G maze and even made their own kaleidoscopes.

“We even got to make our very own Teddy Bear” (Yolanda)

“Do you know how the Teddy Bear got its name?” (Ms Margaret)
