

SUIS PUDONG NEWSLETTER

SUIS Pudong offers an opportunity for students to enter a continuum of education from Primary through to the end of Secondary to prepare them to become Global citizens for the 21st century.

Dear Parents,

These last few weeks have been extremely busy as we get close to the summer break. We were visited by our Primary G5 students who spent the morning with us- undertaking Science, Spanish, History and Geography classes. As well as using the café bar (a highlight!) the students got a chance to listen to presentations from our G8 students. The students all commented that as well as still feeling nervous about the move to 'big school' they are now in addition a little excited!

At the other end of the school, after a very successful Work Experience our IG2 students took part in an A level taster day- they met the subject staff, learnt about the courses and the summer reading needed. Mr MacDonald and Mr Colton also shared the Pastoral side of A level too- from projects and personal statements- each student had a 1:1 to talk about their aspirations for university and the world beyond.

Pictured below: The Grade 5 and IG2 meet their new teachers

14th June Graduation

What a night! Our students, parents and staff all looked fantastic and partied the night away! A very special evening with a formal ceremony- reflecting the hard work and commitment our young people have made.

There was heartfelt speeches from student representatives Sean Dube, Linda Zheng and Hanson Sun in IG2, Alif Diankusuma and Seth Dong on behalf of A2, the tutors, and Ms Sahi (and baby Myles) even joined us via video.

We were honored to host such a large event this year- making it our biggest and best yet.

Congratulations class of 2019!

IG2, A1 and A2 will be receiving their Cambridge results August 13th. We ask that students come into the school on that day from 2pm. All students have been given a unique log in to access their Cambridge results online August 13th (from a slightly delayed 3pm). However, we do hope to see as many of you as possible in person!

Rewards Evening

Our annual Rewards Evening event was held last week for KS3 and IG1 students. Each year these awards celebrate the 'Most Improved' student and 'Highest Achiever' in each subject. Although we do not base success purely on awards it is important to recognize our high achievers. Here at SUIIS Pudong we also value a moral character hence why the Pastoral team also awards a 'Student of the Year' and 'Most Improved' initiative for those young people who have gone above and beyond in each tutor group. This year the tutors gave a speech explaining why the awards were given. The occasion was fantastic.

Please see below for the list of honors:

Subject	Grade	Academic Achievement	Most Improved
Chinese	G6	Ariel Zhang	Isabella Chen
	G7	Yolanda Chen	Mathilda Nedinger
	G8	Amy Geng	Tomy Yang
	IGCSE1	Mike Yan	Susan He
English	G6	Eliza Zhang	Lijia Yu
	G7	Isabella Zuo	Christina Bonafos
	G8	Ariel Cao	William Xu
	IGCSE1	Louise Liu	Jerry Zhu
Science	G6	Ariel Zhang	Kate Lin
	G7	Elissa Fung	Fede Cordischi
	G8	Ariel Cao	Simone Lin
	IGCSE1	Shirley Dong	Selina Wang
Maths	G6	Jonathon Fung	Annie Wang
	G7	Fiona Bai	Coco Yang
	G8	Ariel Cao	Natalie Nip
	IGCSE1	Elaine Zheng	Xuan Wang
Spanish	G6	Ariel Zhang	Oscar Sun
	G7	Elissa Fung	Kiki Cheung
	G8	Cao Jia Yi (Ariel)	David Jin
	IGCSE1	Singh Yatharth Banerjee	Eric Wang
Geography	G6	Zhu Yu Yue 6SD	Mauricio De Bonafos
	G7	Elissa Fung 7MS	Mike Liu
	G8	LESNIAK Yaryna	Geng Jia Qi (Amy)
	IGCSE1	SAUT Giovanni	Mitsutsuka Kana
History	G6	Chelsea Wei	Lin Cheng
	G7	Elissa Fung	Eva Jiang
	G8	Kevin Wang	Simone Lin
	IGCSE1	Yatharth Singh	Elaine Zheng
Business	IGCSE1	Yatharth Singh	Elaine Zheng
Computer Science	G6	Jonathan Fung	Xavier Howard
	G7	Iannis Hasnas	Genevieve Liu
	G8	Ariel Cao	Loic Gilkes
	IGCSE1	Mike Yan	Kana Mitsuka
PE	G6	NiuNiu Wang	Oscar Sun
	G7	Alen Shen	Cassie Wang
	G8	Emma Wang	Kayla Chen
	IGCSE1	Selina Wang	Kevin Xu
Art	G6	WANG Yi Fei (Yifei)	YU Cheng Wen (William)
	G7	ZHOU Yi Lan (Yoland)	G7AC ZENG Xi Ran (Leo)
	G8	WANG Yi Fan (Emma)	YANG Zong Ling (Tomy)
	IGCSE1	Lulu Lv	Elaine Zhang
Music	G6	Ariel Zhang	Maricio De Bonafos
	G7	Isabella Zuo	Teddy Sang
	G8	Susie Li	Lucas Zhao

Student of the Year (Pastoral Tutor Award)		Most Improved
6SD	Kate Lin	Ethan Dong
6ET	Zoe Cheng	MauricioDE BONAFOS
7AC	Dhwani Sheth	Josh Zhou
7MS	Elissa Fung	Rio Nakamoto
8NB	Lucy Hu	Leo Liu
8ZB	Tiffany Yang	Yvonne Yang
IGVG	Yatharth Banjaree	Eric Tang
IGCV	Eric Wang	Susan He

Reports

The final end of year reports went out this week, if you have any questions please do not hesitate to contact the subject teacher or your son or daughter's form tutor directly.

The Museum of Traditional Chinese Medicine

On the morning on June 6th 2019, all the G6-G8 students went out for a teaching activity -- visiting Shanghai Museum of Traditional Chinese medicine. Following the guide's footsteps, the students visited different traditional Chinese medicine specimens and learned about plant medicine, animal medicine and mineral medicine. They completed ancient Chinese medical activities and looked at medical equipment as well as watched a video about the history of ancient Chinese medicine. The students were impressed by the wisdom of ancient Chinese and expressed their interest in Chinese traditional culture.

When I went to the museum of traditional Chinese medicine for the first time and saw all the medicines gathered in one place, I found the charm of traditional Chinese medicine. Bian que, Li shizhen, Shen nong...These people understand the greatness of Chinese medicine and study it. Seeing these herbs and the legend of shennong, I can't help but imagine that the desperate patient is getting better and better, which is probably the doctor's sense of achievement.

——G6ET Max

In the museum of Traditional Chinese Medicines, we observed a variety of valuable or common Chinese medicines, and learned a lot of interesting facts. We appreciated the magical charms of ancient medicines and marveled at the wisdom and ability of the traditional Chinese doctors. During this experience, we understood the preciousness of natural medicinal materials, but also felt the broadness and fascination of traditional Chinese medicines.

——G6ET Ariel

The Museum of Traditional Chinese Medicine

Ancient Chinese medicine was full of wisdom. Many medicinal materials can be created by using one material. Different parts have different effects.

——G7MS Joanna

My cousin studies Chinese medicine. Every time she sees me, she tells me something about Chinese medicine, which I can't understand. But after going to the museum, I became interested in Chinese medicine, and I learned a lot of knowledge and history of Chinese medicine.

——G7MS Coco

This trip helped me to learn about the four famous books about medicine in and the culture of ancient China.

——G7MS Kiki

I think that this trip was quite excellent, because we plunged into the depths of Chinese medicine. Before this trip I know almost nothing about Chinese medicine, now I am bursting with knowledge.

——G7AC Iannis

SUIS Pudong Shines To the Light Bulb!

On 21 June, LBC hosted the huge Project Fair in the library for exhibiting various masterpieces by all the LBC students. All the staff and student visitors showed great passion. The fair was full of people. Numerous younger primary students observed carefully, felt impressed, stood there for a long time and were unwilling to leave. The LBC students, the authors of the projects were standing next to their projects and presented their inspirations, ideas and whole process from idea to exhibit. "Is your Solar Barbecue Grill really going to work?" "Are you inspired by Monet?" Faced with the younger students' curiosities and questions, the older brothers and sisters of LBC answered them, the process of interactive discussion and learning from each other, not only improved their confidence but created friendships. They all highly praised their older brothers and sisters' excellent work.

One of the visitors, a girl from Grade 1 loved some works so much that she hoped she could buy and keep the masterpieces. Countless students said they want to learn from LBC students so they could be as creative as them in the near future.

At the end of the fair, LBC a Graduation & Award ceremony in the auditorium. LBC teachers, the secondary students awarded the certificates of completion to their 39 students. Students received recommendations for their excellent performances during studies. During the ceremony, student representative Emily Chan (G5 Tiger) said that she had a panic attack when she stepped into the tutor classroom because of the unfamiliar situation. But because the class was so interesting and fascinating, she got involved quickly, became relaxed, found confidence and participated boldly. Emily really enjoyed every class at LBC, while she learned to make a stand to the world's problems, to challenge herself, and to be brave to achieve her goals.

How could LBC continue to light more and more primary kids in the next semester? For this question, Co-founder, Director Joy Zhuang answered "Except Grade 5, we will also enroll students from Grade 4; At the same time, we are going to launch classes at the beginning of the next semester, increase the class periods for each lesson. We hope we could provide more free periods for students to make their own projects. In the aspect of curriculum, we hope we could lead students to participate different activities outside the classes, especially for Society; We are going to involve more charities on campus, sell students' Art and Technology works by auction in big fairs, encourage everyone to discover and popularize new targets for funding.

Co-founder, Assistant Director Kevin Xu said: "As we all know, do people light a lamp and put it under a bowl to cover its light? No, they put it on a lamp stand, and it gives light to everyone in the house. "Light Bulb" is for lighting the wisdom in hearts, making students be the light of the world. Learning knowledge and experiencing are just a starting line. For example, Society is about to make people face to the various problems which are existing in the reality, using their wisdoms to analyze the origin, trying the best of abilities to find the solutions, it involves the actions. To make the light shine everywhere in the darkness, to recognize the world clearly and take the responsibilities of a global citizen."

Although they just finished the courses they picked, there's no end for learning. Learning is not just dealing with classes, assignments and exams. Learning is not just for applying a well-known college and finding a nice job. The ultimate purpose of learning is pursuing the truth. Presently, their transition to secondary school will be coming soon. They are going to shine as good examples before their younger brothers and sisters, always remember what they are studying for. More importantly, they are the young generation who are going to lead the future for many, many years to come.

2019-2020 School Calendar

Please find attached our school calendar for 2019-2020. Please note that school starts for all students on Monday 26th August.

Notice:

Please click the link below, see our name of giving booklet for some summer reading. We have hope that this will give you some insight into the guidance we offer here and the fan-tastic wealth of experience in post 18 education we offer here.
