

SUIS Pudong offers an opportunity for students to enter a continuum of education from Primary through to the end of Secondary to prepare them to become Global's citizens for the 21<sup>st</sup> century.

Dear Parents,

Welcome to issue 17 of our newsletter. In this issue you are going to hear from our Student Voice group. This is a wonderful opportunity to hear about all of the amazing things our students have experienced and enjoyed. June is going to be a very busy month for us all. Please take note of the upcoming events. We are also attaching our calendar for your reference for Semester 1 of the new school year. Wishing you all an enjoyable weekend.

亲爱的家长，

欢迎查阅第 17 期家长信，本周将与您分享学生之声。这是一个很好的机会来了解学生的奇思妙想和美好的经历。六月对我们所有人来说都将是非常忙碌的一个月，请注意即将举行的活动，附上新学年第一学期的校历供您参考。祝大家周末愉快！

### G2 Panda Emily Wang & Elliot Chen

It has been a spectacular year in G2 Panda. We have done a lot of interesting things about different topics such as Poetry Week and Science Week. For Earth Day, our class even won a pizza party! In order to win the pizza party, we had to be extra quiet and finish all of our food for the whole week. That was an excellent week!

Another awesome event was Cultural Diversity Week. On 13th of May, we had an outdoor fair. All of the grades had to choose a country and each class was in control of an activity. We also went on some great field trips this year. In the first semester, we went to the Bio-Farm. We got to pick crops, eat flowers and we even planted a peppermint sprout. In the third semester, we went to the Shanghai Wild Animal Park to see the different animals. We had a splendid time in Grade 2 and we are looking forward to our time in Grade 3!

# Student Voice

## G1 Lion Louis Yan

### About Me

I am Louis Yan. A grade 1 Lion student of Ms. Nicola and Ms. Ivy. I am a new student in SUIS. My first day in SUIS was exciting and a little bit nervous. Why? Because I am a new student and I don't know what will happen. But it was so cool and fun, I met a lot of new classmates and became my friends. And my teachers Ms. Nicola and Ms. Ivy are both kind, pretty and helpful.

### The things I've learned.....

I learn how to design my own t-shirt. We print some shapes and numbers on our shirts. That is during Maths week. Some experiments in Science are so exciting, because we make invention like animals made of plastic gloves, play dough and colored string. English class is really challenging, because we need some reporting, so I learned in how to do some research for my report to make it better.

### Unforgettable activities and experiences...

Our field trip to Lego land was a happy moment for me. I really love playing and building Lego. I had so much fun watching movie with my teachers and classmates. Making Lego cars and houses; playing Lego boat and guns are something to remember. Another activity that made me so excited is the picnic day in the school field, it's the Earth day celebration in SUIS. We brought healthy snack, shared it with each other. It was cool and fun. We all eat so much food.

Sports Day! It was a great day! I like sports and I joined the blue house. It was so energetic that day and I won 3 medals. I am in the third place of the caterpillar, I got second place on running and a champion in high jump. A year in SUIS is really amazing! Full of fun experience and challenges.

## G2 Dragon Lucas Xu

I think the highlight part of the school year is our class assembly about Earth Day. Everyone in our class including the teachers worked hard to prepare the show. Some students made colorful posters and creative crafts, some wrote poems about Earth Day and some practiced hardly for the chorus. There are many interesting parts of our assembly, but my favorite part is the fashion show. Because we designed and made a lot of gorgeous dresses and cool shirts using various recycle materials. I even used magazine papers to make a pair of angel wings! When we put on our hand-make clothes, got on the stage, the audients clapped and clapped their hands. I felt so happy at that time! The show also let me know that if the pollution rises, the world will be warmer and warmer. Then tsunamis and tornados will come to destroy our home. As the Earth is the only planet we can live on, we need to take good care of it.

So I think the Earth Day assembly is the best.

## G3 Lion Costin HASNAS

Hello, and my name is Costin. I have had a fun and exciting year this year. The first thing that was very fun this year from what I remember was Sports Day! I enjoyed this activity better than the other Sports Days because I had more chances of playing or trying the activities the teachers had set up because there were not as many people going slow so that their partners or House teams did not have to wait.

The second one on my list was Open Day. Even though my parents could not come, it was fun meeting the other ones. This day was not the most fun, because the next one coming up was the field trip – a fascinating trip to Lego Land and the Shanghai Aquarium. We went through all the hallways, explored every detail, and even shared some snacks together. That was fun, but what was more fun was the beginning of Math Week!

In this week we spent a lot of time on a travelling sheet, which was fake but was made out to be a real airplane schedule! We took off at one time, took a little bit more time, and finally we were in Spain!

Speaking of Spain, this year in Culture Diversity Week our country was about Spain! The BEST thing about this week was because we had an inclusive primary-wide Culture Diversity Fair for the first time ever! This event was so fun, I would say it is the best thing I've experienced in the whole school!

The last thing I found fun was the Summer Concert! I was in the concert playing on the piano a song called *Bohemian Rhapsody*. That is all I have to say for my Grade 3 school year.

## G4 Panda Amy Tao

This school year has been awesome! But what I love most is book week because writing and reading were so much fun! During book week, different houses competed with each other on the number of books read. I spent all my spare time reading, trying to make our house the champion. I read at least 50 books. It wasn't hard for me at all as reading is my way of relaxing. Our house didn't win at all, which was no surprise, because other houses probably outnumbered us.

The part I love most about book week is writing my own story. Since I had read so many books, I got tons of inspiration. Besides the fact that I love writing, I was desperate to win because I would love other students to read my book. Finally on Friday, we could dress up like the characters in our favourite books. It was entertaining, moreover, we were awarded certificates!

Most of the special events were over, but there are still some left in this school year like Crazy Hair Day, which is happening this Friday, and the summer concert. It's a bummer I can't perform in the Summer concert. I was supposed to sing 'When I grow up' from 'Matilda' with Paulina and Elizabeth but it was cancelled.

The school year is almost over, and I am really looking forward to next year.

## G5 Tiger Johnny Li

At almost the end of this year, I can probably still remember lots of things that have happened during grade five. The one thing I can never forget is the most Spectacular assembly ever done in the whole world: Grade five tigers' Gt News on Five assembly.

Everyone worked so hard and put so much effort on it. There were ads, breaking news, weather reports, cooking shows, Spring festival gala Introductions, Game reports, and even a wild man who made his way into the garden of SUIIS! Everyone Participate and Enjoyed the whole process of recording and acting In front of the whole grade four and five.

And of course, The tigers did other things in the in this year. One of them is the Cultural diversity week fair Which was hold the first time ever in SUIIS. As the teachers chose Italy for the theme country of our class, we Learn and found out of many facts About this country. We made fact books, Learned its culture and design A game called Potchi, And we even prepared food like pizza, spaghetti and even Tiramisu.

Preparing was tough, but everyone seemed to enjoy it because It was actually so much fun to attend the first ever cultural diversity week Fair. Almost each classes From different grades prepared for their own country: boards of introduction, fantastic games that you can play with your friends, and some countries even had food and drinks prepared for you to rest a bit and enjoy. You can chat with your friends while a drink from "Japan" and tasting the Flavors of the honey cookies from "Holland".

May these be the best experiences I've ever had.

## G5 Lion Winnie Wang

My year in G5 Lions has been very busy and interesting. My favourite part was the Cultural Diversity Week fair. I really liked the activities and learning about the different countries. Our class studied Japan and its culture; I chose to write about the history of the Fukushima nuclear power plant accident. A challenge in G5 was the Cambridge checkpoint exam in April. I spent a lot of time reviewing our learning to sit the tests in maths, English and science. I feel I made the most progress during this time because I learned some new facts during my revision and also about the rules to sit formal exams. We have had quite a few school trips this year in Grade 5. We have been to the chocolate factory to learn about the origins of cocoa beans, the Science and Technology Museum to help learn about animals and their habitats. We also visited the temple for some peace and to learn

about Chinese culture and had a morning at the movies to celebrate finishing our exams.

## G5 Panda Chloe Chen

五年级是我带过最快乐的一学年，可能是因为这是我最后一年在小学，可能是因为不同的老师，也又可能就是单纯快乐。最好玩的事情就是Micro-society，我们可以经营自己的公司，可以自己赚钱可以光顾别的店铺，可以做社会的一部分。我们店赚了两百多块钱，有的时候赚钱，有的时候亏钱，但是赚了钱的激动。花了钱的心痛都可以从这难得的活动里体现出来。

很多老师都说我们班是最吵得一个班，可是这个班里每个同学，每个老师都是缺一不可了，这让我们在协和得最后一年变得更加快乐。

## G5 Dragon 朱梓卿 Zoe Zhu 徐靖宜 Jophy Xu

一眨眼，我们毕业了。离弦的箭，带着那令人回味的时光，匆匆从眼前飞逝而过……

那些妙趣横生的瞬间，如印章般，承载着同学间的回忆：有谈笑风生，有争吵不休，有嬉笑打闹，有闷闷不乐，但终究，不论是欢乐还是沉闷，都烙印在了每个即将毕业的小伙伴们们的记忆中。

徐靖宜：在之前的学校，我学到了各种语文作文的描写手法，通过舞蹈提高艺术方面的品格；在新学校的这一年里，我不但学到了知识，而且懂得了要主动去社交，提高自信心且全面发展。

朱梓卿：在这一年，我与我的朋友们经历了各种风雨，自然吸收了不少教训与经验，却也收获了更多美丽可爱的事物，而这一瞬间，这些事物都将化作云烟，从身旁消散……从幼稚到成熟的字迹，从在操场上漫无目的地走来走去，到与同学们说说笑笑，那些流连忘返的经历，都成为了童年的写照。

愿五年级龙班的同学们能够再叙友情，定格童真，也祝六年级的我们能将未来的憧憬永远保留，不畏艰险地勇往直前！

Tanya

Grade 4 Review

In this school year, it was alot of fun. We had so much wonderful activities. Everyone was determined to encounter more topics for more knowledges. We had two provocative teachers, Mr. Wendy, and Ms. Ms, whom cared for us more than anything. One of my favourite activity week was the exam week, we get to test our abilities in a fun, writing quiz paper. But that's not really - much of it. Another cool activity was the math week. We can design a poster and show it to G5 and G3 and winning votes for reward. But unfortunately, our team didn't win. The whole point of all activities was having fun and everyone indeed had a great time and alot of fun. We also had Earth week, which the teachers organized a picnic when we students can decorate a paper bag and bring healthy snacks.

To sum up my whole year at SUI Padang, we had myriad various of activities and events. I want to thank all the teacher who had been organizing all the fun events and memorabile weeks.

THE , END

G4 Lion Tanya Xu

## 5 Things that made me remarkable through the year

The first thing that made me remarkable is 2020 Sports day. All of us were split into yellow, red, blue and green houses. I played many events and I liked to play badminton, standing long jump and 50m dash. I also participated in the relay race and we won! I got two medal a silver and a gold.

The second thing was the swimming contest in Suis grupu. Weiran and I were selected for Suis padang swimming team. I was signed up for 50 m breaststroke (with board) and 50 m freestyle. I managed to win a third place medal in one event. I am very happy that I can represent my school to participate in this competition.

The third was the class presentation that we did during the school assembly. Our topic was extreme weather. We spent alot of time researching our lines, using props and rehearsing. We have did a huge airplane! There was blizzard, hurricane, volcano and drought groups. We were all nervous on that day, but we think that we put up a splendid show.

The fourth was the math week this year. It was all about math, we did a booklet that we need to travel to five countries. There was also math relay and sudoku challenge and I nearly got all right! I got a certificate for doing the most points on mathematics.

The fifth was the science fair, each group did an experiment, my group did an experiment on "which material cleans the best using detergent?" One of the best things was that we could see other people's posters. Every group did a wonderful poster and we learned alot of things when we were doing the experiment.
