

SUIS PUDONG NEWSLETTER

SUIS Pudong offers an opportunity for students to enter a continuum of education from Primary through to the end of Secondary to prepare them to become Global's citizens for the 21st century.

Dear Parents,

Welcome to the next issue of our newsletter. All of our grades have exciting things to share with you about the past year. I am sure you will be impressed with hearing about all of the students memories and thoughts.

We look forward to welcoming parents and students to our 3 way conferences next week. This will be the first time that students will be involved in the conferences and be part of the discussions.

On behalf of all of the staff, I would like to thank our wonderful PSG for our 'Teacher Appreciation Day' today. Our PSG presented each of our teachers with beautiful gifts and flowers. We are very fortunate to have a supportive and collaborative PSG who add value to our Pudong family - THANK YOU. I'd like to you wish you all a wonderful Dragon Boat Festival.

3 way Conferences Wednesday 16th of June, Thursday 17th of June

We are delighted to inform you that next week on Wednesday and Thursday, we will have our 3-way conferences. It is our very first time to have the 3-way conference so we will briefly inform you of the format. A 3-way conference includes three key groups of the school: the parents, the teachers and the students. In a 3-way conference, your child will present some of the key learning they have done this school year and their achievements. After a few minutes, the parents and teachers will continue the conference without the student. For this conference to be successful, your child will need to be present. Therefore, when booking appointments, please make sure you select a time that both you and your child can attend together. Lastly, please use the online booking system to book an appointment for 3-way conferences, as this is the only way to book appointments.

We will provide supervision in the auditorium after school on that day, please make arrangements regarding to school bus and pick ups in advance and inform your child's homeroom teachers/school bus. If you child have after school choir or orchestra club, please avoid booking 4pm to 5pm slot so that your child can be present for the 3-way conference. For any specific questions and concerns, please email your child's homeroom teachers.

Summer Concert

We are delighted to inform you that we will be hosting an International Primary Stream Summer Concert in the Auditorium from 1.30pm until 3.30pm on Thursday the 24th of June 2021. We are pleased to provide you with a live stream QR code for you to watch the concerts at home. The online sever has a limitation of visitors who can view the live-stream, therefore, we graciously request each family to use only one device to view the live-stream.

We all are looking forward to it!

ISP Summer Music Concert
'Music from the Movies'
Date: June 24th
Venue: Auditorium

GRADE 1

Countries, cultures, languages, communities, shapes and measurement, sea creatures, poems and jokes have been some of the amazing topics we have studied in Grade 1. Our Grade 1 students started the year as young students, settled in really well and are now ready for Grade 2.

Along their learning journey, they learnt about the Earth and how to take care of the Earth. They learnt about countries and continents and proved how much they learnt during our class assemblies, where they spoke so confidently. We celebrated different cultures, languages and countries as we traveled across our 'school globe.' Students represented the Netherlands but traveled to exciting countries like Mexico, England, Spain and Italy to mention a few. Grade 1 can certainly say that they had a truly international experience in ISP!

Some quotes from our Grade 1 students:

G1 Dragon Qiqi : "My favorite part of this year is studying Chinese Culture with Ms. Gao."

G1 Panda Sissi : "My favourite part of Grade 1 was cultural diversity day and our assembly because we could travel to so many countries. I loved my class assembly"

G1 Lion Queena : "It was the week that we did our own inventions for Science week"

GRADE 2

Wow! We really have come a long way since the first days of Grade 2! We have studied everything from how to write informal and formal letters to how to solve long division equations. We have also tackled global issues such as endangered animals as well as global warming due to the greenhouse effect. All of this learning has also come with some fun as well.

Whether that fun be from studying Korean culture for Cultural Diversity Week, visiting farms and zoos on our field trips or from choosing a topic to teach the school about for assembly, we most certainly attained a lot of knowledge this year. The students have grown and developed into marvelous young citizens and we wish them all the best in Grade 3!

Some quotes from our Grade 2 students:

During this year, I think I'm happier. We also learned about Kandinsky's art work. I think this has been the best school year of my life. I will never forget it! —— G2 Panda Rachel

I had a fantastic year with my friends and teachers in Grade 2. I still remember our fun filled Field trip to Bio farm where I saw many interesting things. —— G2 Dragon Green

I like doing the global warming poster for theme and in PE class I enjoyed doing badminton and baseball. I think I was the happiest this year, I won't forget this year! —— G2 Lion Catherine

GRADE 3

During Semester two, Grade 3 has been involved in varied activities to advance their creative skills. They have designed posters, creatively face-painted other students from other grades and helped with crafting ideas during Cultural Diversity Week. This year, we have studied different forms of writing, including advertisements and persuasive arguments such as debates. They really made some well-crafted and entertaining arguments in their debates!

During Science week, students thoroughly enjoyed themselves while using the scientific process to design posters for their chosen investigations. We are ending this fun-filled week with Art Week, where students are creating an outfit made of recycled or repurposed materials, and today we have seen some amazing creativity. Overall, Grade 3 students had an excellent and thrilling year! We developed many useful skills and attained knowledge

for school and for understanding principles at work in the world around us.

Some quotes from our Grade 3 students:

“ For me Grade 3 has been a great learning experience and I am very grateful for my teachers.” ——Melissa G3Panda

“It has been a special year, because we got back in the classroom.”—— Amy G3 Dragon

“I love learning about Roman Numerals and Data handling in Maths.” ——Justin G3 Lion

G4 students have had an exciting end to the year with so many events and activities. They went for field trips and learned a lot more beyond class. During Earth week, they enjoyed a picnic with friends in the beautiful sunshine and weather. They travelled around different countries during Cultural Diversity week and experienced different culture and food too.

GRADE 4

We also had many interesting lessons to sum up their learning for the year and the students have plenty of achievements to be proud of. During English lessons, they learnt how to write and perform a poem using various skills. They also discovered how seasons occur and why people living in different countries experience different seasons at the same time during Science lessons. The Grade 4 teachers would like to wish the students all the best in their future endeavors as they move onto Grade 5.

Here are some quotes from our G4 students:

G4 Panda Joy Yu: The subject that I enjoyed the most this school year was Chinese. The way I use my mother language is improved and I enjoyed the Chinese culture week.

G4 Lion Shine : This year is the best time I have ever had in my five-year SUI time. My most beloved activity is Culture Diversity Week. We had a fair where each country represented one country and we had different food and a lot of traditional activities. Our class presented Mexico and Mr. Mo made some guacamole which was fantastic. We walked around and enjoyed the food from different countries.

G4 Dragon Cici Feng : The Grade 4 is going to the end, when I turned back and stopped my footsteps I realized that I learned so many: In PE I learned baseball. In ICT I learned how to code. In Maths I learned how to find out the equivalent fractions and different parts of circle. In English I learned how to write a fable. In Chinese I learned how to understand the poems. I have found so many treasures in knowledge.

GRADE 5

We are tremendously proud of all the achievements and success from our Grade 5 students. The final term of this academic year saw the grade 5 students complete their very first official, formal examinations. We are all very proud of the conduct of every student, who took the exams seriously, worked hard to polish their knowledge of everything they have learned over the past 4 years, and tried their very best on the day. We look forward to sharing the results with you and celebrating their successes.

Our PSHE lessons have been a bit different this term, taking a more economical/sociological theme with the launch of our class micro societies. This has been a lot of fun; electing leaders, setting up businesses and exchanging currencies for various goods and services in order to learn how a society and the economy works. In Science, we have tried our hands at some engineering tasks, making umbrellas out of paper, bridges out of straws, catapults and marble runs. I think I can speak for all of Grade 5 when I say that the summer holiday is a well-deserved break!

Here are some quotes from our G5 students:

G5 Padna Emma : “We enjoyed learning about real communities and the economy in our micro society so that we can be successful in our future lives.”

G5 Lion Kimi : “We had fun learning about the cultures of different countries, especially the food!”

G5 Dragon Hannah : “We really enjoyed our field trip to Baoshan Temple because we learned a lot about Ancient Chinese traditions, such as the shape of the roof.”

G5 Tiger Valerie : “We made a society called Tiginia and we set up our own businesses. This was a lot of fun.”

School Calendar

Please find attached our school calendar for Semester 1 of 2021-2022 school year.

Parents please note: Our new school calendar will follow the Shanghai Government Guidance. For the period 23rd December - 31st December, our G1 to G5 students will have a planned 'Chinese Culture Week'. We understand that this takes place over the Christmas holiday. For this period, we will authorise all leave requests. Please request the leave to your homeroom teachers as early as you can.

June is the rainy season in Shanghai. Please pack your child a raincoat or an umbrella so that they will not be caught in the rain.

Key Dates

- 15th of June - Reports for Term 3 on iSAMS
- 16th & 17th of June - Parent Teacher Conference after school
- 23rd of June - G5 Graduation 1:30 pm
- 24th of June - SUISS Summer Music Concert 1:30 pm
- 25th of June - Last day of 2020-21 for Students , School ends at 12pm
