

SUIS PUDONG NEWSLETTER

SUIS Pudong offers an opportunity for students to enter a continuum of education from Primary through to the end of Secondary to prepare them to become Global's citizens for the 21st century.

Dear Parents,

Welcome to our fortnightly newsletter. It has been a pleasure to welcome you all to campus for various meetings and events. I hope that you have a good understanding of what happens at our campus. I would like to share some news about our PSG. Our current PSG Chairman Mr Max Gao who has been leading the team for the past 3 years will step down from his position. On behalf of all of the members of our school community - students, teachers and parents, we would like to thank Max for his hard work, time, support and efforts. Max has been an outstanding Chair who has successfully enhanced partnerships between both school and parents and has been a delight to work with. I am pleased to share that Max will continue to be part of the PSG.

Sports Day

On Monday 18th October and Tuesday 19th October, we held our annual Sports Days for all International Primary students. We had the perfect weather in the midst of all the rain, it was dry and also not too hot. Everyone showed up well prepared for the day in their sports attire and house colours.

We could feel the excitement and nerves of the students at the prospect of competing and earning individual and house points on the day. The students and teachers were extra excited to invite the parents to attend this year as well.

The students followed a rotating schedule on the day which allowed them to participate in a variety of individual and house events. The events offered either 1 – 4 points for collective house effort or individual scores.

Grade 1 – 3 events were competitive throughout and stayed in close competition with each other. Once the points were tallied up the results were Blue – 316, Green – 278, Yellow – 272 and Red – 243. Well done to the Blue house!

Grade 4 – 5 students took part in a very close contest and the lead changed the whole day. The “tug of war” was the final event and it determined the winner in the end. The results were Green – 123, Yellow – 116, Blue – 115 and Red – 112. Well done to the Green house!

The back and forth swinging of results just showed the quality of collaboration, resilience and excellence by all students. They can all be very proud of themselves!

Both days were ended on a high with a “tug of war” between the teachers and parents. The parents won the battle on the G1 – G3 day and the teachers won the battle on G4 – G5 day. Thank you to the parents for being good sports on the day!

This day would of course not be possible without the hard work of all the staff involved. Also, a special word for all Grade 9 students who assisted on both days. Everyone’s efforts are greatly appreciated by the PE department!

Authors' Day

Author's day is on October 29th this year. This event will feature the winners of our story writing competition during last school year. Students can purchase the books directly from the authors and even get the authors to sign their books. Each student can bring up to RMB 100 to school in order to purchase books on that day. No preorder is required.

Story Writing Competition

This year's story writing competition is officially underway. Students have already started writing and illustrating their own English and Chinese books and the deadline for the competition is on Monday 15th November. This year, the theme of each story must be about one of the school's six qualities of confidence, community, resilience, innovation, responsibility and reflective. The best entries will be selected and the winners will have their stories published. During our next Authors' Day, these students will get the chance to sell their books to other students and teachers.

Anti-epidemic Measures

So far we are still following the most up to date policy: parents who have travelled outside Shanghai within 14 days can not enter the campus. If you do have something urgent that needs to be dealt with in the school, you should get a Nucleic acid testing done within 48 hours before entering the campus and submit the negative results to the school before that.

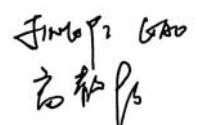

Thank you for your understanding.

Key Dates
